

STOP THE TICK!

TICKS COME FROM BELOW !

HOW DO YOU STOP A TICK ?

- minimize exposed skin and cover remaining areas with a strong insect repellent such as Care Plus® Deet 30-50% or Care Plus® Repel-it (picaridin)
- wear Care Plus® Bugsox, the impregnated anti-insect socks that will stop the tick
- tuck trousers into socks, spray trousers with Care Plus® Deet Spray for extra protection
- check the skin for ticks after having been outdoors and remove the tick safely within 8 hours with the Care Plus® Tick-Out tick remover
- test the tick with the Care Plus® Tick-Test and consult a GP if necessary
